WILLIS & CO.'S BANK NOTE LIST

Vol. II.] AND COUNTERFEIT DETECTER. [No. 4.

PUBLISHED AT No. 82 STATE STREET, BY THOMAS GROOM & CO., STATIONERS. S. N. DICKINSON, PRINTER, 52 WASHINGTON ST.

MONEY MARKET.

THE money market at this moment is in rather an unsettled state, and not a little uneasiness is manifest for the future; our rates have ranged, for the last sixty days, from one to two per cent. below the New York and Philadelphia ruling prices. Considerable amounts of the regular business paper from those cities have been sent here for negotiation at the more favorable terms prevailing here; for some time past applications have been received from New York for demand loans at 6 per cent., on hypothecation of prime stocks. Throughout the last month there were strong symptoms of an increased demand for money, which were not a little confirmed by the call, from the Merchants' Bank, upon the other institutions in the street for its balances, preparatory to the payment of three and a half millions of the government short loan, maturing the 1st. Generally, when any indication of a scarcity of money is anticipated, people begin to look out for discounts in advance, and offer more paper to the banks for negotiation than is actually needed, and a reaction is the consequence. Most of the city Banks, during the last ten days, have refused prime paper at 6 per cent. that has been offered to them a little out of the regular course. Of this class may be included that drawn at the West against provisions and other products, accepted by Boston Houses, which is as legitimate and safe as any paper that can be made in the way of trade.

That money will command more than at any time recently is evident, but that there is any real scarcity we are strongly inclined to doubt, from the fact that all the prime State and city stocks, together with the most productive railroad shares, are as high, and, in regard to the latter, higher than they have been at any time within the last six months. Bank stocks would naturally feel the increased value of money, and have consequently advanced; and most of the shares in the old Banks are scarce, and in demand at our quotations. In railroads, particularly, a considerable advance has been maintained, as will be seen on reference to our list, and these stocks, as well as Bank, are by no means readily obtained in the market; and we are confident that any large orders would materially enhance the rate. The speculative stocks, as might have been anticipated, have fallen off, and remain dull at quotations. With the single exception of the Western, all non-dividend stocks have declined. This stock has steadily advanced, with but few sales, some $3 a share, but is not wanted in any amount at its present price; it is, however, scarce in the street, very little being held by brokers; but we think it is in that position, being owned much of it on speculation by people in trade, and capitalists who have bought within the last half of the year, that it is liable to be advanced by a monopolizing process, or depressed considerably by an opposite policy; but it is quite evident that either operation is not within the control of the stock brokers. The Reading railroad stock has declined materially, in anticipation of the report of its condition, which it is said will be unsatisfactory: this stock has never enjoyed the confidence of this community, and its bonds, that were issued on mortgage of the road, at a depreciation of twenty per cent., are not sought after, and they are dealt in more with regard to a speculative movement than for permanent investment.

In Manufacturing and Insurance stocks few transactions have taken place; our quotations are without much change.

Domestic Exchanges are all favorable; the supply of Bills on London is small in this market. Specie of all kinds is in fair demand. Patriot Doubloons are scarce, and in demand.

TEXAS.

The debt of Texas is supposed to exceed twenty millions of dollars. This amount consists of Bonds, bearing interest at the rate of 8 and 10 per cent.; and Treasury Notes, which were intended as a circulating medium, and receivable for public dues. The principal amount of this debt has been contracted in the defence of the Republic;—the Government Lands are pledged for its redemption. The Government did not realize more than about 40 per cent. of its value, as it was issued at a depreciation. One of the conditions of annexation, is the assumption of Ten Millions of this debt by the United States, to be paid from the proceeds of the Public Lands of Texas.

These Securities are the subject of much speculation, and are continually fluctuating as the political horizon is favorable or unfavorable to the project.

MUTILATED NOTES ON THE STATE BANK OF INDIANA.

10s and 100s on this Bank and Branches are in circulation at the West, that have been cut in halves, and improperly matched; that is, one half the bill would be of one Branch and the other that of another, and still the correct length of the note preserved; they are, however, redeemed by the mother Bank; the difficulty undoubtedly has occurred from the custom of dividing Bank notes, destined for transmission to a distant point, and afterwards, being carelessly pasted together; we have seen such paper here.

The forgers of "Bank of England notes," alluded to in our last, have been detected; the plate from which the notes were printed was engraved by the "Electro Magnetic process," with the exception of the numbers, managing director's name, and the name of the clerk entering the dates; these were afterwards done by the pen. Forty notes were printed, and only twenty put in circulation.

By the late arrival, accounts have been received of an enormous robbery of "Bank of England notes," nearly $300,000 worth, of all denominations. By the accuracy of the system constantly used in England, each of the above notes have been advertised with full particulars, and payment stopped; some clue will eventually be got at by this means; the public should be on their guard in taking "Bank of England notes," without comparing them with the above-mentioned list. A copy of this may be seen at our office.

STATE BANK OF INDIANA.

We have received the November report of the affairs of this Institution and its branches,—it came to hand so late that we are not able to present so full a statement of its condition as we could desire.

This institution is one of the safest in that country, so far as it regards its circulation, although by no means so strong as our own Banks. It issues notes only through its branches, of which there are thirteen. Its issues are occasionally brought on by the merchants, and offered in the way of trade; they are readily converted into our currency, at a trifling discount, and should at all times be promptly received by the community for goods.

The Bank is in a flourishing condition; they appear to have earned nearly 7 per cent. the past year. The increase in circulation over and above the last year is $738,097 in specie, and $151,786.34 in deposits; $104,006.77 in discounts, and bills of exchange $156,891.16. The aggregate amount of salaries paid to all the officers of the mother Bank and its branches, including a part of the compensation paid to directors and attorneys, is $26,250.

A Condensed Statement of the Condition of the State Bank of Indiana and its Branches (in the aggregate) on the 16th of November, 1844.

DANGEROUS FRAUDS.

5s on the Northampton, and Dover, and Barnstable Banks have recently appeared, very exact and full particulars of which will be found under their respective heads. They are so good an imitation, particularly the two former, that we would recommend all those not entirely familiar with the originals, to reject this denomination altogether, thus to compel Banks to adopt a plate of their own, executed in altogether a better style of engraving than that in general use among our country banks.

Beware of bills purporting to be of the "Hudson River Bank, New York City,"—there is no such institution in operation.

Numerous alterations in the denomination of the Bank notes, issued under the new New York Banking law, are in circulation, generally done by pasting. Beware of all notes of a larger denomination than 10s, as these new banks, out of the City, issue none of a larger denomination.

The banks in the District of Columbia, having lost their chartered powers as banks, have resolved themselves, with about the same organization, into Trust Companies, and have issued notes reading thus: The President and Board of Trustees, promise to pay, &c. &c. They "are looked upon, so far as regards security, the same as the regular bank note; it is, however, an evasion of the intention of Congress in refusing to recharter."

We would recommend Cashiers of Banks, Brokers, and others who should be familiar with Bank notes, &c. to read the body of the work, particularly that portion relating to the Northern and Eastern banks, as it is constantly changing, and reporting every variety of particular in relation to the respective institutions, a knowledge of which, as they occur, may be found to act "as an ounce of prevention in saving a pound of cure."

The following Banks in New Hampshire have extended their circulation beyond the limits prescribed by law, during the last three months, namely—

Ashuelot Bank, Keene	$16,882 00
Commercial Bank, Portsmouth,	599 00
Merrimack Co. Bank, Concord,	13,731 00
Lebanon Bank,	15,588 00
Lancaster Bank,	2,020 00
Making a total excess in their legal circulation of	$48,820 00

They are to be dealt with by the attorney general.

The amount of the circulation of the "*Relief*" notes in Pennsylvania, is at present $1,296,556; original issue, $2,220,265. The State law now provides for the redemption of $200,000 annually.

5's, a dangerous fraud, extremely well calculated to deceive. It is an alteration from some worthless bank note of the same plate as this bank, with the name and location erased, and "*Northampton*" inserted; and by this is the only means of detection afforded. They are of various dates and numbers, and signed by the proper officers of the bank. The paper of the counterfeit is lighter colored, that of the genuine note dark and oily, a firm paper. By carefully observing the address and location of the bank, the indications of an alteration will be apparent. Those not absolutely certain in regard to genuineness of a bill offered had better refuse all of the denomination of $5 on this bank. 100's are said to be in circulation of a spurious plate.

2's, which are half an inch shorter than the genuine.
5's, Madison Branch—good imitation; in some, the eagle in the vignette turns his head to the right, in others, to the left.
5's, shorter and narrower than the genuine, having the name *Merrill* engraved, and the word 'Vincennes' spelt with one n only in the second syllable.
5's, (branches at Evansville and Richmond,) letter B, of various dates, and payable to different persons, signed *John Douglass*, Cash., *S. Merrill*, Pres. Poor imitation, engraving coarse, paper thin.
5's, dated Jan. 1, 1839, payable to G. W. Rathbone; *S. Merrill*, Pres., *John Ross*, Cash. Can be detected by observing the names of the engravers, W. Dane & Co. The genuine were engraved by Rawdon, Wright, Hatch & Co., New York.
5's, letter D, dated Oct. 9, 1839; payable at the different branches. They are tolerably well executed, though the bills have generally rather a dull, dead look. The letter V in the left hand margin, is too narrow, and not well proportioned. The bills contain good portruits of Washington and Lafayette, with a vignette of a woman and a ship. Purport to be engraved by Rawdon, Wright & Hatch.
5's, letter D, pay at Fort Wayne. Vignette, a female seated on boxes, and ship at sea. Engraved by Rawdon, Wright, Hatch & Co., N. Y. Paper coarse.
10's, filled up on different branches. The bills are shorter than the genuine, and rather narrower.
10's, letter A, pay D. Deming, at their Branch at Terre Haute; paper coarse, execution bad.
10's, spurious; vignette, a steamboat with several vessels in the back ground, and a town in the distance The note is further ornamented with the head of a female, and one end contains the likenesses of two Indians, one seated and the other lying down.
20's, payable at the Branch at Vincennes. Letter A, payable to D. W. Rathbone; engraving indistinct.
20's, pay at Richmond, letter A. The paper is lighter, and the note shorter than the genuine; engraving not so distinct. In the figure of Archimedes grasping his lever, on the left of the counterfeit only the little finger is represented; on the genuine, the whole hand.
20's, payable at the Lafayette Branch.
20's, and 100's, altered from 5's. They may be readily detected, for they are clumsily altered, and by their having retained the heads of particular individuals on the notes, as all the 5's have; none of which heads are on the 20, or 100 dollar bills. The only 20 dollar bill issued, has the Indiana State House for its main design, while that of the only 100 dollar bill is a Roman soldier and matron. The upper and lower margin is cut off the 5's, in making the alteration

10's, letter A; vignette, a Railroad train; shorter by one-eighth of an inch than the genuine.

1's, letter C, dated April 1, 1841. The paper is not good, and the signature of the president is bad. The counterfeit has also, between the signatures of the Cashier and President, a dog watching an iron safe, which is not on the genuine bill.

10's, letter C, payable to N. C. Hale, Oct. 4, 1837.
10's, dated May 7, 1839, payable to J. C. Sloo. The right hand margin only tolerably executed; all the rest, and especially the words 'Bank of Illinois,' and 'Shawneetown,' wretchedly done, as also the signature of *John Marshall*.
20's, letter D, payable to different persons and of various dates. *John Siddall*, Cash., *John Marshall*, Pres. Signatures poor imitations. Engraving too dark; vignette, on right end of the bill, steamboat and vessels under sail. W. Dane & Co., engravers.
20's, payable to W. C. Doyle, dated Aug. 4, 1829. On the left hand end of the note, around a circle, are the words '$100,000 owned by the State.' The paper and engraving are in good imitation of the genuine. The signatures of the President and Cashier are rather badly done.

5's, well done.

10's. In the fine white letters at the top and bottom, the word "Dollars," after "Ten," is omitted, in the counterfeit.

10's, payable at St. Louis, with the name of the cashier engraved. These notes are shorter than the genuine, on coarse white paper, and have an engraving of a Railroad in the centre, where the genuine have a steamboat, with the name Gen. Pike, on the wheel-house.

20's, letter B, payable to different persons and of various dates. Exceedingly well done, and calculated to deceive. Paper of the spurious notes has rather more blue in it than the genuine, and is thinner. The medallion head of Jackson is too dark.

1's, altered to 10's. The vignette on the 1's is a sporting scene: a forest, two sportsmen, and a dog. That of the 10's, the arms of the Territory, viz: two eagles, holding in their beaks, the motto, '*E Pluribus Unum.*'

2's, letters A, B, altered to 10's, pay to ——, July 4th, 1825. The vignette of the genuine 2's is the escutcheon of the State, supported by two eagles, resting on a tablet. In the shield, a tree with the figure 2, large and in the centre. In the altered notes, the 2 in the shield is extracted, and 10 stamped in its place, which renders all but the top of the tree invisible. In the body of the genuine 2's, the word TWO is in Roman capitals. In the genuine 10's, the word TEN is in Italic capitals.

5's, spurious, and read Michigan Bank, (no letter.)

10's, no letter, payable to William Bell, dated June 4, 1833—the heads in the margin coarse. The vignette of the genuine note has two lines, representing the masts, or the shrouds only, of a ship, and pass off from the bottom of the two foremast mainsails; in the counterfeit, three lines from the middle, and four from the *foresail*, resembling shrouds, pass down distinctly to the deck of the ship.

3's, letters D, B, pay H. Whiting, dated Jan. 1st, 1830.

10's, letter A, pay to Thomas Sloo. Paper thicker, and of a cream color, and about ¼ of an inch too short.

10's, letter A, dated October 1, 1830, pay to E. P. Jones. Paper thin; the engraving pretty well executed.

10's, letter A, pay to G. Jones, dated January 1, 1831; others October 1st.

10's, letter B, pay to R. Stuart, dated Jan. 1st, 1830. Paper and engraving very light. Filling up in a bold hand, and in consequence of the paper being thin, the ink has spread.

☞ Counterfeits of various denominations; they may be detected by rubbing a piece of paper lightly over the dates; if the paper appears black, the Note is genuine; if the paper is not soiled, the Note is counterfeit. *This is owing to the good Notes being engraved on wood, while the bad are done on steel.* Few counterfeits in circulation in this country.

☞ £100 notes, with a "real water-mark," dated 5th of December, 1843. This new counterfeit differs from all others, in having a real water-mark, while those heretofore issued have a mark sufficiently like a water-mark, to deceive, made by the application of intense pressure.

The *Lockport Banking and Trust Company*, an institution doing business under the New York banking law, has "stopped payment." Formerly this process was called "*failing*," but the more fashionable term now used is, "stopped payment," or "suspended for the present." We would recommend the holders of their notes not to sacrifice them at present, as these banks in New York State are secured by good stocks, which will be at once appropriated by the comptroller to the liquidation of the liabilities of the respective institutions.

NEW YORK AND NEW HAVEN R. R. The Journal of Commerce says, that the capital stock of this road (2,000,000) has all been taken by about twenty wealthy individuals or firms, and there is no reasonable doubt that it will be taken absolutely by them and others, in time to commence the construction of the road at the opening of the spring.

The Journal is not entirely correct; the individuals alluded to have made advances for the purposes of survey, &c., and hold a refusal of stock, which they are at liberty to take, or forfeit whatever moneys they may have advanced.

COUNTERFEIT ILLINOIS SCRIP.

A new issue of counterfeit Illinois Scrip has been discovered, probably printed from the original plate; but they may be detected by observing that the paper used is of a yellow cast, and is of that kind called by engravers, proof paper. The paper of the genuine bill is thin and whitish. The filling up and signatures of the counterfeit are very well done. The notes are signed J. Hogan on the right, and Wm. Prentice on the left, payable to H. Fellows or order. The indorsement is not well executed.—*Goodman's Western Bank Note List*

The term for the redemption of most of the notes of the banks marked "closed," in the list, will expire soon. As these bills are entirely worthless after the expiration of the time allowed by law, it is quite important that holders should hasten them home as soon as possible. The term of the Exeter Bank, N. H., and the Union Bank, Brunswick, Me., expires, we believe, on the first of June next.
